BAKRIE UNIVERSITY

Informatics Engineering

Relevant Coursework: E-business, Database System, Advanced Database, Technology-Based Entrepreneurship, Human-Computer Interaction, Web Development

Jakarta, Indonesia

Sep 2020 - Aug 2024

WORK EXPERIENCE

PT. SWADHARMA DUTA DATA

Quality Assurance Core Banking System | Placement at PT Bank Negara Indonesia (Persero) Tbk.

Jakarta, Indonesia

April 2026 - Present

- Executed **comprehensive regression testing for the TIPlus application workflow and credit limits** across multiple critical modules, including Import, Export, and Garansi Bank Online (GBO).
- Conducted **end-to-end Front-End and Back-End testing**; verified the TIPlus application interface and end-to-end transaction flows across surrounding systems, while performing Back-End database queries to validate successful payment and transaction settlement.
- Supported the workflow improvement initiative (Phase 1) for **KCLN (Kantor Cabang Luar Negeri) London**, aligning local banking workflows with international branch requirements.
- Executed a cumulative **7,000+ test cases** across SIT phases for the CTA & MD bookkeeping projects using **TestRail** to manage test scenarios, while leveraging **Redmine** to systematically track and monitor defect lifecycles to ensure full coverage of business requirements.

NTT DATA ID

Quality Assurance Core Banking System | Placement at PT Bank Negara Indonesia (Persero) Tbk.

Jakarta, Indonesia

Oct 2024 - April 2026

- Acted as **Co-coordinator for the "Limit Trade System Import" project**, overseeing testing synchronization and workflow alignment, while previously contributing as a Junior QA for the "Trade Workflow Improvement (Phase 1)" project.
- Performed thorough **validation across Front-End UI components and Back-End databases**, ensuring transaction records perfectly synced between the core system and external surrounding banking applications.
- Executed a cumulative **3,000+ test cases** across Join Testing phases for both projects, ensuring comprehensive coverage of business requirements and system improvements.
- Streamlined **defect management and reporting** by collaborating closely with Product Owners, Project Managers, and Developers to resolve critical issues and deliver high-quality software documentation..

MSIB INTERNSHIP - EUREKA EDUTECH

QA Assistant | UX Researcher & Designer

Jakarta, Indonesia

Aug 2023 - Dec2023
